Before beginning work, engage professionals: (i) to ensure that these products are appropriate for your intended application, that the structural components for which these products are to be used in connection with are sound and that the work areas are safe and free from all potential hazards including utilities and other services; (ii) to provide clarification if these warnings are unclear or if you do not understand any of the information in the installation instructions for these products. Before installing these products check with the appropriate authorities for locations of underground utilities, services and hazards. These products may not be suitable for all applications or soil conditions and are not intended for commercial use. Always comply with all applicable building codes. Work in a safe manner. Either before, during or after cutting, metal components may have sharp edges which could fragment. When using tools always comply with the applicable user manuals and instructions. Everyone in the vicinity of any work area must wear appropriate protective gear including gloves, footwear, eyewear, hard hat and appropriate clothing. Do not use these products in connection with wood that has been treated with Ammoniacal Copper Quaternary (ACQ) or with any other substance that is harmful to these products. Inspect and maintain these products and the structural components that they are used in connection with on a regular basis using professionals when appropriate.

Neither Peak Innovations Inc. nor any member of the Peak Group of Companies (as defined at www.peakproducts.com) shall be liable for any loss or damage resulting from the improper installation or use of these products. In the unlikely event that Peak Innovations Inc. or any member of the Peak Group of Companies is held to be liable for any reason, such liability is limited to the retail purchase price of these products.

Dear Customer,

We'd like to take a moment to say “thank you and congratulations” for choosing our products. At PEAK™ your satisfaction is very important to us. That is why we work very hard to provide you with products of exceptional quality, value, and beauty. And that is also why we want to hear from you. Please contact us with your comments or suggestions at: quality@peakproducts.com

Or if you prefer, write to us at: “Customer Care” – The Peak Group of Companies P.O. Box 96060, Richmond, B.C. Canada V7A 5J4

Finally, we'd like to remind you to always work safely. Then, take pride, relax with your family and experience years of enjoyment with PEAK™ products.

The Peak Group of Companies

### Important Information

**Hand Operated Tools & Materials Needed:**

- Drill & screw bits
- Hacksaw or metal cutting saw
- Tape measure
- Level
- Appropriate protective gear including gloves, footwear, eyewear & clothing

All fasteners are included with each component

peakproducts.com

### Installation Instructions

**Fence Panel Parts**

- Rails (3 pieces)
- Rail Covers (3 pieces)
- Pickets with Caps (14 pieces)
- Brackets (6 pieces)

**Self-drilling fastener “A”**

ø4.8 x 13 mm (44 pieces)

**Self-drilling fastener “B”**

ø4.8 x 19 mm (25 pieces)

### A) Assemble the Fence Panel

**Step 1**
- insert pickets into rails (Fig. 1)
- line up rail holes with pre-drilled holes in pickets
- secure with fasteners “A” (Fig. 2)

* do not overtighten
- repeat for all pickets (Fig. 3)
### B) Install Posts & Attach Panels

**Step 1**
- Determine post spacing (maximum 6" from centre to centre - Fig. 8)
  - Measure and mark position of post holes
  - Dig 10" x 10" hole (depth noted below)
- Insert posts into holes
  - 4' Panel - Overall post length 70" = 21" underground
  - 5' Panel - Overall post length 88" = 27" underground

**Step 2**
- Insert post into first post hole
  - Mix and pour concrete into first post hole
  - Ensure post is plumb and brace post
  - Insert second post into second hole
  - Don’t pour concrete yet

**Step 3**
- Install 6 Panel Brackets, but DO NOT fasten yet
  (Fig. 5 & 6)

**Step 4**
- Attach fence panel to posts using 12 fasteners “B” (Fig. 11)
  - Pour concrete into second hole
  - Ensure post is plumb and brace post
  - Repeat steps 3 & 4 for remaining fence panels

### C) Installing a Gate

**Fasteners for Gate**

- Self-drilling fastener “B” Ø4.8 x 19 mm (7 pcs)
- Self-drilling fastener “C” Ø4.8 x 25 mm (12 pcs)
- Wood screws Ø5.0 x 38 mm (4 pcs)

*Opening between the posts must be 42”*

### For Aluminum Posts

**Step 1**
- Align top of gate post with top of fence post

**Step 2**
- Attach U-shape bracket to the Aluminum fence post with 4 self-drilling fasteners “C” (2 front & 2 back)

**Step 3**
- Remove nut

**Step 4**
- Install remaining 2 self-drilling fasteners “C” to side of U-shape bracket (lift bolt slightly to insert bottom fastener)

**Step 5**
- Reattach nut

**Step 2**
- Snap rail cover onto rails to conceal fasteners (Fig. 4 & 4A)

### For Wooden Posts

**Step 2**
- Attach U-shape bracket to the Aluminum fence post with 4 self-drilling fasteners “C” (2 front & 2 back)

**Step 3**
- Attach hinges to wood post with 4 wood screws (2 per bracket)

**Step 3**
- Remove nut

**Step 4**
- Install remaining 2 self-drilling fasteners “C” to side of U-shape bracket (lift bolt slightly to insert bottom fastener)

**Step 5**
- Reattach nut

**Step 2**
- Snap rail cover onto rails to conceal fasteners (Fig. 4 & 4A)

### Latch Assembly

Use fasteners “B” for these steps:

**Step 1**
- Secure retainer to gate frame at marked position

**Step 2**
- Insert latch through retainer and secure to gate frame at marked position

**Step 3**
- Secure latch plate to fence post near top of latch
